Petr lives and works in Kolin (CZ), where he has his studio. He studied art privately. In addition, he attended art history course at Charles University in Prague. Creation of recent years are mainly oil paintings on canvas though he works also with other art techniques.

During all those periods his artistical main direction was "Surrealism". He let himself guide by drawings and ideas inspired by surrealism and even by visual elements and their composition interfering between fantasy and reality, thus giving the image of individual expression and style.

In 2014 he was granted the honorary membership in the Australian surrealist group "C. A. S. M."
